

# COMMITTEE OF 100

The Committee of 100 is the management team of the British Constitution Group (BCG), to facilitate the "MAGNA CARTA 2015" project. This project is the declaration of an Independent Nation State, under international law on the 800th anniversary of the signing of the Magna Carta, the date is the 15th June 2015.

We need to have the structure of governance in place to have a viable Nation State, ie our own Bank, currency and other necessary departments to facilitate an economy strong enough to survive. To achieve this we need people to step forward to be leaders and helpers bringing their unique skills and desire to help build a "just and fair" society.

The committee of 100 is not confined to 100 people. It is an idea and had to be called something. Members will present "policy" to the committee to be accepted or rejected. The idea if accepted in principal will be further developed and adopted as policy. No party politics. This does not work in the best interests of the people. It will be policy politics.

In the run up to the declaration of Independence, members on the committee will be who ever puts themselves forward. It will then mature to a system where the member will need nomination/election from their geographical area as a representative.

The electors will have the power de-select their member. Direct Democracy not party politics.
